

## Communication Plan

The Communication Plan provides the guidelines for AntCom communication and dissemination activity. Its main goal is to detail a consistent and homogeneous strategy to be followed by each participant. Participants, at beneficiary, associated partner and individual level, are encouraged to an active communication of their results respecting the framework of the present plan. All the documents related to AntCom communication and dissemination must be stored and archived in a dedicated folder on Ucloud.

The document is available to consortium members here: [Communication Plan .pdf](#)
